Run your own quizzes from your website. Uses a flat file database and takes as many quizzes as you like, multiple choice, single answer and yes or no. Records username and password, with automatic retrieval of forgotten username or password to the users email address. Spam protection against email attacks. Top scorers for each quiz and top scores for individual users. Optional email to admin when a quiz is taken. A stylesheet is included where the script colours can be changed and a banned word list is included for the usernames. 3 sample quizzes with a few hundred questions and answers are also included.
