

# Radio DJ Panel v3

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This innovative script is designed for use in an Internet Radio environment. Its main function is to act as a link between the DJ's and the Radio Admin. It allows the Users/Admin to; add, edit, suspend, delete DJ's, edit the admin message, edit the news bulletin, view submitted contact forms from DJ's, promote/demote DJ's, view server detail logs, alert users by ip, book timetable slots, send PM's to other DJ's/Staff, and much more! It also features a built in form so that users that are listening to the radio can submit song requests, competition entries, shoutouts, and etc. It also comes with a quick and easy installer file for your convenience! And all this comes 100% free, no strings attached! Requires PHP 4+ and 1 MySQL Database. Note that this script is no longer actively updated.
