Random URL Rotator - Unlimited URLs

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A simple PHP script that allows you to rotate an unlimited amount of URLs through the one URL. Does not use frames and includes a web interface admin area to add and remove your URLs. Great script for those with many affiliate URLs and need to promote all of them through the one simple link. MySQL is not required.
