

RasterMapper

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This Java applet implements a raster image mapper with several features, e.g. draggable map, case-insensitive substring search, pull-down menu, hot spot flasher, dynamic coordinate and hot spot pointer, auto-resized images, color options, fully customizable hot spot info file, external links, etc. You can supply your own map, related images, and hot spot info files to configure this program. This is a convenient tool for realtors, virtual tours, security systems, etc.
