ReaGif - image converter to GIF

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Combine batch image conversion from any format to GIF with plenty of image editing operations. For example, you can resize a folder of images with different extension to half the original size, rotate, change colors, rename, crop, make borders, and save in GIF - all in a single step. It can be easily integrated to shell so you can work on your images right from Windows.
