

Real Estate Database Search

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This program allows the web user to choose how many bedrooms, bathrooms, lowest & highest price, property type, and location/area. The program responds by listing all the entries that meets the user's criteria. From these entries, the user may click on the listing number to obtain a more detailed description and pictures of that particular listing. All the data is stored in an Access database. Easy to setup.
