What is Real Estate Portal Software? Simply put, The Real Estate Portal Software by BlueSoft is a powerful software solution for creating a scalable while flexible real estate portal. It allows an unlimited number of sellers and real estate agents to list their property for sale. They can add photos, features, descriptions, open house dates & times, and much more. Allow buyers to search for real estate based on location, features, price and much more... Buyers are able to save there favorite property listings and return to them later. They can send there bookmarked listings to friends and family. If the buyer is interested in purchasing the property they can contact the seller or real estate agent through the messaging system or a number of other methods like phone, email, and SMS. The combination of flexibility, power, and customization make Real Estate Portal Software the solution for some of the largest real estate portals on the net!
