Manage and categorize records and record collections can be time-consuming! We have manage to create a software that can do this for you! Powerfull but yet easy to use! RecordPress is a publishing platform for records and follows all web standards fully! RecordPress is a FREE software to manage and categorize music collections in text and pictures. CD, DVD, Vinyl (12", 10", 7") and so on... RecordPress uses PHP 5.0+ and PDO module with Apache server and MySQL 5.0+ as database. Any operating system follow these requirements should work! Everyone is invited to join the ongoing work with RecordPress. To make RecordPress a future state-of-art record management & publishing software.
