Let your shoppers easily make recurring purchases at your store with Recurring Purchase Assistant extension for Magento! The extension allows for creating and managing lists of products for recurrent purchases. Shoppers can maintain several lists and share those lists with others. The extension allows for setting up reminders about the upcoming purchases. All options available to shoppers in the front-end are also available for Admin in the back-end. Admin will also be able to set up discounts for specific lists, and shoppers will be able to request a discount based on their purchase history or intention for future purchases. This is a must-have for those who sell goods that are purchased frequently and on regular basis, such as groceries, office supplies, baby care products, home and garden care products, etc. Full list of features is available on the product page.
