A complete set of scripts to create and maintain your own downline club for any affiliate/multi-level programs that have referral URLs. Using it you can promote your referral links for Get-Paid-To programs, MLM programs, Traffic Exchanges, etc. Your club members get their own unique URL to promote and can replace the affiliate program IDs with their own, so that when other people join these programs, the member that owns the page would get referrals (signups) for them. If the member didn't enter the IDs for some programs then the upline IDs would be used. It can replicate any number of pages.
