

ReminderScript

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Simple to set up, simple to use! Header and footer files are in place to make editing the layout a breeze. The administrative area allows for one-page administration of users. An interactive calendar makes choosing a date as easy as the click of a button! ReminderScript runs with a CRON job so you can set it and forget it! Once you have set up the site, nothing else needs to be done - just wait for users to start signing up!
