

RemindMe!

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

RemindMe is a simple auto-email reminder service program that lets users sign up to receive email reminders about a date they choose at a designated interval before that date. Users can select whether to be reminded only once or annually, semi-annually, quarterly, bi-monthly, monthly, bi-weekly, weekly, or daily. They can also choose to be reminded one day, three days, one week, three weeks, one month, or six months in advance. Users may also view, edit, or delete any pending reminders. The administrator may modify a special footer text file to be appended to all emails sent by the system. Supports basic POP-Before-SMTP and SMTP-Auth for mailing if needed.
