NTFS partition recovery utility efficiently retrieves erased directory of music, text documents, still snaps from SCSI, IDE, PATA, EIDE and SATA hard drives without any data loss. Windows NTFS file restoration program restores damaged data even after corruption of MBR (Master Boot Record) or MFT (Master File Table) in desktop/laptop hard disk. Advanced NTFS file recovery software supports restoration of lost data from major hard drive brands including Hitachi, Seagate, Olympus, Kingston, Samsung, Panasonic, Compaq etc available in market. Hard disk NTFS file rescue utility accurately retrieves logically corrupted files from windows NTFS5 partitions. NTFS partition restoration program easily regains inaccessible data from corrupted or formatted hard drives in original format. NTFS file undelete application rescue all deleted data including text, pictures, movies even if an error like Drive Not Detected or Drive Not Formatted is being displayed by system.
