Review is a very advanced and feature-filled package. It features an administration panel, which is password-protected, a reviews lister, a more detailed info. page when thumbnail clicked, as well as an entire gallery which allows people to enlarge pictures. This package has an extremely easy installation and is very useful. Since it does have the reviews lister as well as a gallery it's like buying 2 packages for the price of one! It takes advantage of the ability to use templates thus making room for 100% customization. You can design it to look and feel exactly the way YOU want it to. It's the perfect solution!
