The next-generation editor is now available! RichTextEditor for asp.net is by far the fastest, cleanest, most powerful online wysiwyg content editor. It's also available for PHP and ASP. It enables asp.net web developers to replace any textbox/textarea with an intuitive word-like wysiwyg html editor. RichTextEditor toolbar is completely configurable and it is also effortless to implement. You just need a couple lines of code to add this editor to .NET and MVC applications.
