

RTDownloadCounter - Ajax Php Download Counter

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

RTDownloadCounter scripts counts how many times your files are downloaded in your website and allow you to know the results in real time using jquery ajax call. This script uses SQLite database. A minimum of php technical knowledge is required. This software requires Apache & PHP 5.4+, Mod Rewrite & SQLite enabled. Now supports resume downloads, large files and Download Manager.
