Mobile Number	{value_mobile_number}
Email	{value_email}

Newly released rwAuction Pro v7.0 enhances capabilities for creating auction websites and unique ecommerce solutions. Integrated flat and calculated shipping, sales tax options, and comprehensive invoicing enable sellers to manage their entire sales process. rwAuction Pro is a standalone website that is flexible enough to accommodate many different business models with or without customization. At its core and primary focus, rwAuction Pro allows you to create your own auction website. It can become an open channel to enable buyers and sellers to transact while charging for listing options, optional membership plans, and maintaining control over sellers and listings. This type of scenario is often used for new or existing businesses to start online niche, collectible, or regional focused markets.
