

Screen Display Controller

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a javascript which can adjust any internet browser screen display with 1024x768 and above into 800x600. At present there are a variety of monitor resolution sizes. When webmasters design HTML documents, the screen display can not be adjusted for each user. This javascript will always ensure your screen to be 800x600.
