

# scrollBar class - fully customizable with tween

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

i've been searching around for a good customizable scrollbar class, but i didn't found much. so i decided to make it by myself. this is fully graphically customizable and very easy to use. it drags every kind of content. movement of the content is made with actionscript tween class.
