

# ScrollUp

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This is a Java scrolling applet with several cool features that can enhance your web site. At a specified rate, it reads and reloads from a file and supports auto-wrapped text and images. You can set colors, font face / style / size, left / right / center alignments, Unicode characters, web address links, scrolling speed, background image, margins, shadow / outline effects, pause time, etc.
