

Search Autocomplete and Suggest

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Fully customizable look. With a simple CSS edit, you can change any colors, borders, paddings, etc. AJAX-based, so it doesn't load your full database of products, only those that have been matched Searches after only the third character has been entered Shows product images in the search results Allows your store's visitors to navigate directly to their desired product pages, completely bypassing the search results page Uses 100% pure JavaScript and CSS, no flash or other embedded content and many more.
