Search Engine Add-On

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

This script will create a little window that will have a list of the popular search engines. Clicking on one will connect to it in your browser. You can then click on the browser and search the site. You can continue to leave the Search window open while you browse the internet and can always switch back to it easily to access the search engines.
