<b>Email</b>	{value_email}

Selene is a responsive, modern and clean under construction/coming soon WordPress Plugin. This minimal template is packed with a countdown timer, ajax subscription form, social icons and about page where you can write a little bit about yourself and add your phone, email and address information. With this WordPress Plugin you will be able to work on your site/theme while your visitors see the under construction page. When you're done just disable it in the Selene admin and your new site will be live. You can then keep using it whenever you need to take your site into maintenance mode.
