Send A Page Service

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

How Does Send A Page Work? A visitor visits your web page and clicks on a send button that links to our script. They fill out their friend's information and submits it. Your visitor is then taken back to your web page and a personalized email is sent out to the visitor's friend with the URL of your web page.
