# Send to a Friend

**Address**                    {value_address}

**Contact Person**             {value_contact_person}

**Mobile Number**              {value_mobile_number}

**Email**                      {value_email}

Send to a Friend is a tool based on PHP scripts and Ajax technologies that allows to create "send to a friend" forms. The users do not need to reload the page to recommend it to their friends, the submit process is made transparently on background creating a better user experience. Send to Friend is a Dreamweaver plug-in (extension) allowing you to insert it easily from the Dreamweaver menu into your pages without needing coding skills or Ajax knowledge. It works with Dreamweaver MX and later versions, including Dreamweaver MX 2004, DW 8 and CS3.
