Sending SMS Messages With ASP and OpenSMS

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Interpersonal communication can take place using a variety of communication mediums. In the last couple of years mobile phones have become extremely popular with millions of short message service (SMS) messages being sent every month. This article shows how we can use LiveSoup's OpenSMS component with ASP to send SMS messages to any of the 245 world wide mobile phone networks that OpenSMS supports.
