

SHACK Discussion Group

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The Discussion Group Application was created to combine the functionality of News Groups and Bulletin Board Software in a Browser/HTML environment. By doing so no special configuration of software is necessary and any modern Browser should be able to utilize the application. The logic of the Discussion Group Threadable environment lends itself for an easy open/anonymous environment where ideas and help can be exchanged within a community of common interest.
