

## Show Zip Files

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

A very simple php script that helps make your zip files available for download on your website. It can serve as the basis for a self updating photo gallery. To make a zip file available for download, simply upload it to the same directory as the php file containing this script.
