SIBPROvider is an OLE DB provider for Interbase/Firebird. SIBPROvider allows you to access Interbase via ADO/OLEDB applications such as Visual Basic, Delphi, ASP, Dreamweaver, Crystal Reports and anything that works with ADO or OLE DB. SIBPROvider is a flexible and robust OLE DB provider that works with blobs, large ints, transactions, stored procedures, named and unnamed parameters, views and supplies rich schemas information. SIBProvider has been certified through Microsoft LTM, ensuring its support for Microsoft OLE DB specifications. It's designed to be used with Interbase 6.x or Firebird 1.x versions and later; however, it does have limited support for Interbase 5.x/4.x. Its unique features include auto command parameters creation and auto command type determination.
