

Simple Link Tracker

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This very easy to setup link tracker can be used to track downloads from your web site. It will log the time and date, as well as a few other goodies, such as browser and operating system. You can also view the stat report via the web, and clear the log entries at the click of a button. A separate log is used for each link you wish to track. This tracker can be used for plain HTML links as well.
