Simple POTD Script Multi-Sponsor Edition

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Add a picture of the day (POTD) feature to any site using any pictures and sponsors you like! This script will display a picture and link from a list that will change once per day and then cycle through the list. Specify which URL goes with each pic! Pic changes daily! No database required, uses a flat text file! Link any pic to any URL (relative or absolute)! Per domain licensing! Also works for rotating banners! A must have for webmasters with picture content who are promoting sponsors or want links to go with the pictures.
