

Simple Random Frase/File includer v2.0

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Simple random file includer.V2.0 This script will include/render randomly all files you have in directory, like txt, html or image files. Usefull if you want to randomly display Complex o large Text/QUOTES blocks or complete html files or random images. Update random objects is as simple as Add/remove files from your preferred folder. No db needed With some extra (user) code you can also display flash animations or something else. New version 2.0 enhanced and more flexible.
