

Simple Site Catalog - Your Own Online Store

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A powerful yet simple and affordable online web store building system which offers a multitude of options, including a built-in CMS (content management system), a built-in multi-product editor, and a built-in Google Base feed submission feature. Typically used as it's own full-featured standalone catalog, the Simple Site Catalog is also well known for it's use as an online store catalog service, where you can be the "store owner" and provide the catalog as a franchise service to "store managers". The Simple Site Catalog works seamlessly with either the free or premium Mals-e shopping cart & commerce services. Bring your products to market in addition to building a community of returning & repeat customers. Keep it simple, and give it to them straight. And being such a versatile catalog system, in addition to any tweaks you might make to the catalog, additional custom mods (add-ons) are also available, and custom development requests are welcome.
