

## Simple timer on mouseover

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Two methods to display a timer on mouse over of a HTML link. One with the change of label, the second one to display the dynamic timer only onmouseover of a link. The position of the timer are customisable. This works in all versions of IE and NS including 6.0 and 7.0 version.
