Simpli Easy Members Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Simpli Easy Members Script was created for the beginner or advanced programmer who requires a members area for their website. The Simpli Easy Members Script is packed full of features, Auto Register, send the user an email with User Name and Password for reference. You can have a download area after login "Already Pre-made". An Administration Control Panel, to Add, Edit, Modify or Delete Members. Your members have the option to Add Contacts with Comments, update their email and password, plus send you a support question through a form. You can even add what types of files can be added for upload just by adding mime types to the script. The script comes with an install file that makes it easy to get it started. You can use this members script for just about anything that requires registration. It also includes a forgotten password to help those who forgot theirs. The script will email them a new auto created one until they change theirs.
