

Site Logo/ Watermark Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a site logo/watermark script that lets you display a static image at any of the four corners of the browser, never going out of sight. It's useful for branding purposes, or to offer visitors an easy way to jump back to your site's homepage from anywhere on the page. The logo can be set to disappear after x seconds.
