<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Sitenews is an all in one solution for posting news messages on your site. Instead of having to type each news item in HTML, you can go to your sitenews admin section and type it into a very easy to understand input screen and it will appear on your site. Other neat functions are that you can manage the users who have access to the admin and manage all news items with functions like add, edit and delete. You can also edit the colors, fonts, etc in easy config files.
