SitePM is a powerful web-messaging suite that offers message management, security, and control. Management allows you as an admin to create and manage accounts for your employees. The new integration of NiusanceTrapper © allows you to ban other users from sending you messages, ban email, ip addresses, ban keywords to stop messages from being sent, and scramble profanity. Control allows you to say yes or no to what you want and don't want in your inbox. Available for both individual site install and account-based versions. Features include contact management and the new upload and link feature that replaces the need for attachments. Upload your files to your account, and send download link. File management is available and much much more. With SitePM © you have the security, control, protection from hackers, spammers, and the upload & link eliminates viruses from being downloaded. SitePM © is affordable. Other systems cost \$1000 or more. Easy installation.
