

SkDNS ActiveX Control

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

SkDNS ActiveX Control is a DNS (Domain Name Service) ActiveX control that can be used for network diagnosing, troubleshooting, and monitoring. The Magneto Software DNS (Domain Name Service) ActiveX Control (SkDNS.OCX) allows developers to integrate the DNS protocol message sending capability into their applications. It can be used from any 32-bit Windows development environment, including Visual Basic, Visual C++, and Delphi. SkDNS ActiveX Control is compliant with RFC 1034 and RFC 1035.
