Smallest AJAX example in the world?

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Can a smaller working AJAX example be produced? Always a believer in keeping it simple & find it easier to learn something complex, by making it as small as possible. Visit the URL for a very small AJAX online demo. You can just cut and paste the example into a javascript function, then call it through an onclick or onchange javascript event handler.
