<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}

Just install the Smart Links by Allembu Wordpress plugin, add your links to the plugin, and it will do the rest. Smart Links can also display additional information when a user hovers over a Smart Link with our new Advanced Tooltips. This optional feature allows you to assign a title, description, and even a small image to be displayed in a sleek Advanced Tooltip.
