Give those important pages of your site individual attention. Smart Referrer is a compact product that consists of only one optimized ASP page for all functions including administration panel, comprehensive reports and help section. Very easy installation! You will just have to add an include file to your page to be monitored and add the page URL to the admin panel. Reports generated include: Brief Report; Today's Report; General Reports; and No Hits Report that gives all the referrers that have not accessed your page today and the details of when it was last hit.
