

SMS Web Ad

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

SMS Web Ad is both an SMS Gateway (by which you can create your own script using ASP, PHP and PERL) and an ASP based SMS advertising system which allows you to administrate unlimited advertisers that support the costs of SMS. Some features: CREATE YOUR OWN ASP, PHP AND PERL SCRIPT FOR SMS SENDING; sending up to 160 characters per SMS; Sending over 200 countries; Deferred sending; Editable SMS cost for each advertiser; Customizable advertising text, both on sending form and SMS text; Customizable sender name; Editable max number of SMS/day for each advertiser; Control panel for each advertiser; Control panel for web administrator; Reports for each advertiser; control panel for each end user. NEW: Now you can use your customized form to send SMS, using our server as a gateway. A phonebook has been added, in order to send several SMS simultaneously. End user can now sign up for advertisers sending list!
