Email	{value_email}

SnatchIt! video screen capture software takes screenshot captures of MPEG,AVI,WMV,DivX files to create high-quality thumbnails. Features include the ability to navigate frame by frame to capture a frame of video. It has an option to auto-trim any black borders around videos. You can quickly copy the frames to the clipboard to use in any video editing software. Also has an auto-thumbs feature which automatically makes thumbnails at set intervals.
