Social Plugin (for Inout Search Engine)

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

As social medias have become very popular we have decided to integrate social login into our search engine. With the Social Login now you can provide your users chance to login into your search engine with Facebook or Twitter account. All user previlages of the normal login will be supported like starring, commenting etc. This gives your users chance to escape the otherwise lenghty process of registeration.
