

SQL Reports for iBuySpy

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

SQLReports is a desktop module for the iBuySpy portal that allows you to quickly add read-only tables to your portal tabs using dynamic data in your iBuySpy database. The module allows creation of the dynamic tables without any coding of custom modules. Simply enter the SQL 'SELECT' statement to execute, and the table will be displayed.
