

Stacked Bar Chart

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Sample code to render a stacked bar chart in ASP. Uses a different color for each stack and each stack will have its own tool tip. Just pass an array with your colors, one for each bar. The colors are specified by name, each color name has a corresponding spacer, a gif image file that is dynamically plugged into the IMG tag SRC attribute via the asp code. Sample code available for download.
