<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Start Page is a friendly web interface which lists your list of things to do, your favorite links, and any little messages that you've written to yourself. It is 100% updatable from the browser, and so it makes a handy start page - you are always reminded of your things to do, you have an alternative to bookmarks (helpful for those using multiple computers and browsers) and you have a free forum where you can just write in anything you need to remember.

For more details, please visit <http://scripts.goclix.com/start-page-26158>
