

## StepWeb Search (SWS)

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

SWS is a search program, that can find one or more words in a flat file database where URLs have been submitted, and then prints out the results in a nice format. It features: Case sensitive and insensitive, Checking for repeated entries, Database is protected from public, Counter showing total results, Add/Delete URL tool included, Password enabled for admin and user, Logs all requested keywords, and more.
