StimulReport.Net is a powerful reporting tool that helps you design flexible, feature-rich reports. It's a suite of 100% managed .NET components written in C#. Our product is compatible with VisualStudio.Net. StimulReport.Net is fully using all abilities of .Net Framework. Package includes the report designer that is available for an end-user. It lets you create and modify report templates and rendered documents. StimulReport.Net is recommended both for a simple report rendering and for an unlimited complexity report rendering. Our product is runtime royalty free. StimulReport.Net includes source codes. Creation and using reports with StimulReport.Net is simple, quick and clear.
